

2005/2006 Teamsters Health & Welfare Fund of Philadelphia High Performance Formulary

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your pharmacy benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: The symbol * next to a drug signifies subject to non-formulary status when generic is available throughout the year. Not all the drugs listed are covered by all pharmacy benefit programs, check your benefit materials for the specific drugs covered and the copy information for your pharmacy benefit program. For specific questions about your coverage, please call the phone number printed on your ID card.
